## DETAILED ACTION

### *Response to Amendment*

1. The amendment filed 5/21/04 has been entered. Claims 1,54,69,71 have been amended. No new matter has been added. Claims 1-59, 69-72 are under consideration.

### *Claim Rejections*

2. Claim rejections presented in the earlier office action are withdrawn in view of the amendment.

## EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Goodhue on 9/14/04.

The application has been amended as follows:

### **In the Claims:**

Claim 72; line 1. Replace "(new)" with "(Previously presented)".

### *Allowable Subject Matter*

4. Claims 1-59, 69-72 are allowed.

The following is an examiner's statement of reasons for allowance: The amended claims recite selectively reacting the internal ring structure of a first chemical moiety to form a stable second functional group that can be reacted.

The cited references do not teach altering the bonds of a cyclic group to form a second functional reactive group – they represent linear ligating groups whose functionality is altered by irradiation.

US Pat. 5510216 to Calabrese et al. teaches a photo-Fries reaction (5;55-60 & 6; 35-59) where a nitro-aromatic compound rearranges to form a ligating group. It does not suggest the rearrangement of bonds to form a second functional group. It is further noted that the irradiation is carried out through a patterned resist layer (fig.1-4).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

#### ***Response to Arguments***

5. Applicants' arguments have been considered in allowing the claims.
